

Welcome, I'm Charisse

A university student and aspiring front-end developer with a strong interest in responsive web design and interactive user experiences.

[See My Work](#)

About Me

I am a Bachelor of Science in Information Technology (BSIT) student at Sorsogon State University - Bulan Campus.

My journey in web development is all about creating engaging and user-friendly experiences.

I'm always eager to learn and implement new design patterns to bring ideas to life.

My Toolkit

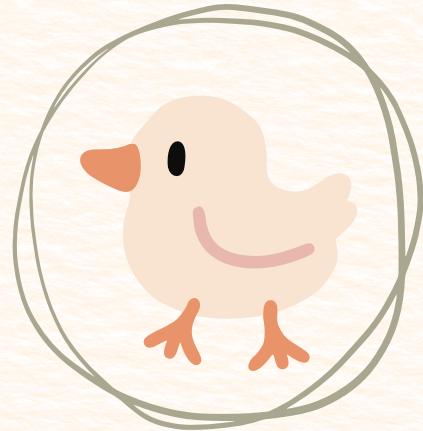

HTML5 CSS3 Javascript

VSCode React

Git & GitHub Tailwind CSS

Bootstrap

More about Me

I'm drawn to soft aesthetics and pastel-themed UIs that feel calming yet interactive. I like experimenting with animations and playful details to make my pages feel alive and expressive.

2025 - Launched my portfolio & projects.
